LEASE MANAGEMENT

Requirements:

- 1)Windows 8 or advanced machine
- 2)Install with two web browser
- 3)Bandwidth of 30mbps

Overview:

A lease management project involves creating a system or application to efficiently handle the processes related to leasing real estate properties, equipment, or other assets. The goal is to streamline and automate various tasks associated with lease agreements, ensuring accurate record-keeping, compliance with regulations, and effective communication between parties involved.

Custom Tabs

No Web Tabs have been defined

You can create new custom tabs to extend Salesforce functionality or to build new application functionality.

Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.

Help for this Page

App Details & Branding Give your Lightning app a name and description. Upload an image and choose the highlight color for its navigation bar. App Details App Branding *App Name 0 Image 0 Primary Color Hex Value 1 Lease Management #0070D2 * Developer Name 0 1 Upload Lease_Management Description 0 Enter a description... Org Theme Options Use the app's image and color instead of the org's custom theme App Launcher Preview LM Lease Management

Dear (Tenant_c Email_c).	. We are writing to inform you that we have successfully received your n	monthly payment.		

- 1. Read the help topic
- 2. View the checklist
- 3. Create a custom user hierarchical relationship field
 - Create email templates
 - Create an approval process using either the Jump Start or Standard Wizard
- Greate an approval process using either the Jump Start or Standard Wizard
 Add Approval History Related List to all page layouts
- 7. Activate the process to deploy to your users

Manage Approval Processes For: Tenant

A listing of both active and inactive approval processes for Tenants is displayed below. To create a new approval process, click Create New Approval Process then select Use Jump Start Wizard to set up your approval process in a few short steps. Or, select Use Standard Wizard to configure all approval options.
